It allows investors to invest a much smaller amount and invest in high yielding bank deposits and government securities that were only previously available to investors with sizeable funds. Additionally, they also get a diversified portfolio, which helps reduce risk and enjoy the benefits of having their funds managed by a professional investment manager.

The Fund is suited for conservative clients who wants an investment strategy where the primary objective is to prevent the loss of principal and where the fund is invested in securities issued by the National Government and/or deposits with local banks/branches of foreign banks operating in the Philippines and/or with financial institutions in any foreign country provided that said financial institution has at least an investment grade credit rating from a reputable international credit rating agency.
