

Important Advisory on availability of Fund Transfer and Bills Payment service in PNB Internet Banking

As we work towards providing you with a more convenient and seamless digital banking experience, we are transitioning our Internet Banking facility to be a specialized portal for Account Inquiry, Investment, and Online Application for UITF and Credit Card products.

With this, the following services will move to the PNB Digital App and will **no longer be available in PNB Internet banking starting January 17, 2022**:

- PNB to PNB Fund Transfers
- InstaPay
- PESONet
- Bills Payment
- Credit Card Balance Inquiry
- Credit Card e-Statement
- Creation of scheduled fund transfer and bills payment transactions

In addition, any scheduled fund transfer and bills payment transactions **from February 3, 2022 onwards will no longer be processed**. You may manage these scheduled transactions by accessing Manage Accounts sections in the main menu.

To ensure your fund transfer and bills payment transactions are not disrupted, please continue to transact using the PNB Digital App.

Thank you.
